Adolf Bastian And The Psychic

Adolf Philipp Wilhelm Bastian (26 June 1826 – 2 February 1905) was a 19th-century polymath best remembered for his contributions to the development of ethnography and the development of anthropology as a discipline. Modern psychology owes him a great debt, because of his theory of the Elementargedanke, which led to Carl Jung's development of the theory of archetypes.

Adolf Bastian and the psychic unity of mankind : the ...

The psychic unity of humankind (or mankind) enters the anthropological lexicon in the work of Adolf Bastian (1826-1905). The idea itself, however, is too large to belong to any single person. An intimation that there is a "humanity" and that it is "one," regardless of differences of caste, age, sex, or nation, is ethnographically rare but not unique.
