Mammal classification has been through several revisions since Carl Linnaeus initially defined the class, and at present, no classification system is universally accepted. McKenna & Bell (1997) and Wilson & Reader (2005) provide useful recent compendiums. Simpson (1945) provides systematics of mammal origins and relationships that had been taught universally until the end of the 20th century.

x In recent years, there has been growing recognition of the financial burden of severe illness, including associations with higher rates of non-employment, uninsurance and catastrophic out-of-pocket health spending. Gynecologic cancer patients often require expensive and prolonged treatments, potentially disrupting employment and insurance coverage access, and putting patients and their ...
