The MDS Master Stations, built upon our modular communications platform, are used with SD Series and x710 series remote radios. The MDS Master Stations support full duplex communication in a protected 1+1 warm standby transceiver configuration to provide reliability for continuous use, high duty cycle applications associated with licensed narrowband Base Station and Repeater applications.

MDS Master Station :: Communications :: GE Digital Energy
GE's initial land mobile radio products were mobile and motorcycle receivers for the AM medium frequency police channels in the 1700 and 2400 KHz bands, and in the early 1930's the company branched out with an experimental VHF AM two way set, using a super-regenerative receiver, but which was more or less a toy rather than a serious police tool.

SURPLUS TWO WAY RADIOS - Surplus Two Way Radios
Talking over a two-way radio is not the same as talking on a landline or mobile phone. For one thing, most two-way radios operate in simplex mode1, which means that a user can either talk or listen, but can't do both at the same time. Only one radio user can talk at a time, while the others listen.
