McKinsey on Finance: What exactly is zero-based budgeting?. Wigbert Böhm: It is a budgeting process where, on a very granular level, you go through a company's spending and determine what resources various business units require. That means looking at individual cost categories across all business units. The process puts the burden of proof on the manager who is asking for resources: he or ...

Before a company redesigns its operating model, a carefully drafted set of principles, typically between 7 and 15 statements, help align the leadership team around a set of objective criteria for designing the model. Debating the principles gives senior executives a chance to address the most vital issues, identify potential problems, and resolve ambiguity.
