Management 1st edition ..**

Agroecology is the science of applying ecological concepts and principles to the design, development, and management of sustainable agricultural systems. The Ecology of Agroecosystems highlights a collection of alternative agricultural methodologies and philosophies and provides an interdisciplinary approach that bridges the sociopolitical and historical context of agriculture.

## **Integrated Natural Resources and Environmental Management ...**

Agroecology (a-grō-ē-'kă-lə-jē) is the study of ecological processes applied to agricultural production systems. Bringing ecological principles to bear can suggest new management approaches in agroecosystems. The term is often used imprecisely. Agroecologists study a variety of agroecosystems. The field of agroecology is not associated with any one particular method of farming, whether it ...
